Dear Parents,

We have been working with our New York Fire Department to help our youngsters to understand the importance of fire safety precautions within our building. Veteran fire fighters will be visiting PS 101 during the month of January to speak with every class of students to promote fire safety.

The learning process does not end here, we want you to become part of this partnership as well. We feel the need to help educate parents about their responsibilities and duties to govern their children properly with mandatory fire safety restrictions in the home.

We will be having an important parent workshop hosted by The FDNY to inform you about how you can make a difference in a serious situation. We strongly urge you to attend.
